### 事業概要 / Description of business

多様で高度な技術を有する中小企業が集積する諏訪地域のポテンシャルを活かしながら、さらに高い付加価値を持つ医療ヘルスケアビジネス・ものづくり加工技術・電気/機械/光学技術・サービスなどの実現

Realizing medical healthcare business, manufacturing processing technology, electric/mechanical/optical technology with even higher added value while using the potential of Suwa area where S/M sized companies with diverse advanced technology are gathered.

### 技術の特徴 / Uniqueness

古くから培われた時計、カメラ等の精密・光学技術をベースとした、超精密機械加工技術、超精密光学技術、超精密表面処理技術、マイクロボンディング（実装）技術等

Ultra-precision machining technology, ultra-precision optical technology, ultra-precision surface processing technology, micro-bonding (mounting) technology based on the precision and optical technology for watches and cameras that has been cultivated over a long period of time in the Suwa region.

### 用途 / Application

現在  
Current

諏訪圏の主要病院と研究会を開催し、その中からあがったテーマを事業化。病院内ニーズ対応、在宅でのスマートケアシステム構築など実用化がなされ、さらに訪問診療・在宅にもフォーカスしてニーズを探求。

We held research meetings with major hospitals in the Suwa area, and commercialized the themes raised from those meetings. They have been put into practice in order to respond to needs inside the hospitals and to develop a smart care system at home. We are exploring many other needs while focusing on not only home medical care but also home-visiting medical care.

将来  
Future

医療ヘルスケア機器全般

Medical health care equipment in general

### 実績 / Achievements

諏訪圏工業メッセを主催。出展社約400社、来場者約3万人  
医療ヘルスケア機器分科会では、研究会のなかからできてきた商品で今年度は国際モダンホスピタルショーの看護でアイデア賞でグランプリを受賞。福祉施設と企業との協力の中で全国老健大会へも論文発表。

Held the Nagano-Suwa Area Industrial Messe, which featured about 400 exhibitors and attracted 30,000 visitors. A product which our subsidy, the Medical Healthcare Equipment Research Group established through our research meetings received the Grand Prix for the Nursing Idea de Award in the International Modern Hospital Show 2017. In cooperation with welfare institutions and companies, we also present papers to the National Elderly Congress.
